

With multi-channel control function (Corresponding to LAN communication)

# Programable digital PWM Power Supply IDGB-PG series

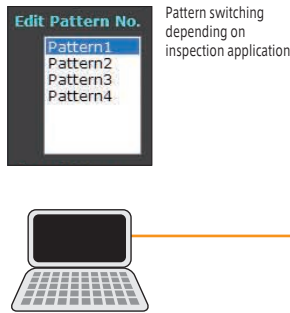

Seamless power supply with programming mode function.  
No need of PLC.

## It has a new function, "programming mode"

- It can set the number of output and order controlled by one <ON> signal.
- Lighting mode: you can choose from Level or Edge mode.
- At the most, it can set and save 8CH × 4 patterns of lighting order, output and lighting time.

### Easy pattern setting with LAN

Pattern switching depending on inspection application

#### <Configurable items>

- Lighting order
- Lighting mode (Level/Edge)
- Output control
- Pattern switching
- Lighting time
- Delay

One pattern can set the parameters of 8 channels.

## Provide sample applications to support Setting

### ·Edge mode

Lighting time is same as the set time (Set time of the Time section).

#### ●External ON/OFF Signal

### ·Level mode

Lighting time is synchronized to input time of <ON> signal

#### ●External ON/OFF Signal

Setting pattern number

Reset function  
Restart from the 1st signal

ON/OFF

P W M 0

Time 0.1ms

ON/OFF : Setting output of each channel  
P W M : Setting output value by 255-level  
T i m e : Setting lighting time (Edge mode only)

Max Trigger

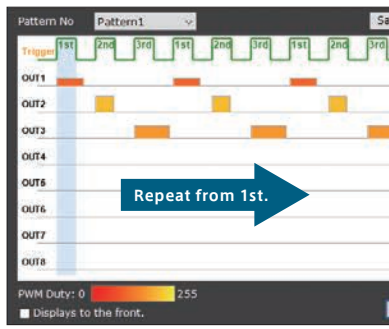

8

By setting execution patterns, the number of times of ON signals within one cycle can be chosen from 1 to 8.

Up to 4 execution patterns can be saved. Pattern calling possible from saved file.

## Application programming example: plural lights (backlight → horizontal ringlight → coaxial light)

·No need of technical knowledge of PLC control. You can see the setting with PC.

### Lineup total 21 Models

Our diverse lineup of 21 models includes two kinds input voltage of AC100~240V/DC 24V, two kinds of output voltage of DC12V/24V, three Capacities of 30W/50W/100W, and three channel choices of 2/4/8 each. The various selections give you the best choice of the power supply depending on light combination and environment.

Model	Input Voltage	Output Voltage	Capacity(W)	Channels	Weight(g)	Drawing	
IDGB-30M2PG-TP	AC100~240V	DC12V	30	2CH	700	1	
IDGB-30M4PG-TP				4CH			
IDGB-30M8PG-TP				8CH			
IDGB-50M2PG-TP			50	2CH	1200	3	
IDGB-50M4PG-TP				4CH			
IDGB-50M8PG-TP				8CH			
IDGB-100M2PG-TP		100	2CH	1300	4		
IDGB-100M4PG-TP			4CH				
IDGB-100M8PG-TP			8CH				
IDGB-30M2PG-24-TP		DC24V	DC24V	30	2CH	700	1
IDGB-30M4PG-24-TP					4CH		
IDGB-30M8PG-24-TP					8CH		
IDGB-50M2PG-24-TP	50			2CH	1200	3	
IDGB-50M4PG-24-TP				4CH			
IDGB-50M8PG-24-TP				8CH			
IDGB-100M2PG-24-TP	100		2CH	1300	4		
IDGB-100M4PG-24-TP			4CH				
IDGB-100M8PG-24-TP			8CH				
IDGB-50M2PG-24-TP-T	DC24V		DC24V	46	2CH	700	5
IDGB-150M4PG-24-TP-T				144	4CH	1000	6
IDGB-150M8PG-24-TP-T	8CH						

### Common Specifications

Output Control Method	PWM approx. 125kHz
External Control	External ON/OFF, External Output Control
Protection Function	Overcurrent protection function, FAN error

### Communication Specification(LAN)

Communication Protocol	TCP/IP
Regulatory Compliance	IEEE802.3(10BASE-T), IEEE802.3u(100BASE-TX)
Communication Speed	10Mbps(10BASE-T), 100Mbps(100BASE-TX)
Connection Ports	4ports
Function	Auto MDI/MDIX, Auto Negotiation

\*The lighting connector number is different from the design depending on the channel number.  
 \*The lighting connector shape for DC24V output specification is different from the design's outline drawing.  
 \*For details of external control cable, see page 104,105.
