

Gig E Vision Compatible Controller [IPPA_G·IRPA_G Series]

First support in Japan by a domestic manufacturer!
 With **Gig E** Vision Interface, easy installation and operation just like a camera!!

The Advantages of Gig E Vision

- No need to set up a new network environment, as it can be used with existing Ethernet infrastructure.
- Easily introduced by utilizing Gig E Vision's image processing libraries.
- Compatible with GEN<i>CAM, allowing for easy integration with different interfaces such as USB3 Vision and CoaXPress.
- LAN cable connection can be extended up to 100m.

Example In Compatible Applications

In addition to the connected compatible **Gig E** camera, the supporting controllers are also displayed in the [Device] field.

The connected compatible **Gig E** cameras (3 models) are from different manufacturers, but they are all displayed similarly and can be configured on the same application using GEN<I>-CAM

In the illumination control settings, the following parameters and etc.

- Output control settings (Internal/External)
- Brightness setting (displayed in 256 levels)
- Brightness setting (displayed as a percentage)
- Flashing time setting
- Delay setting

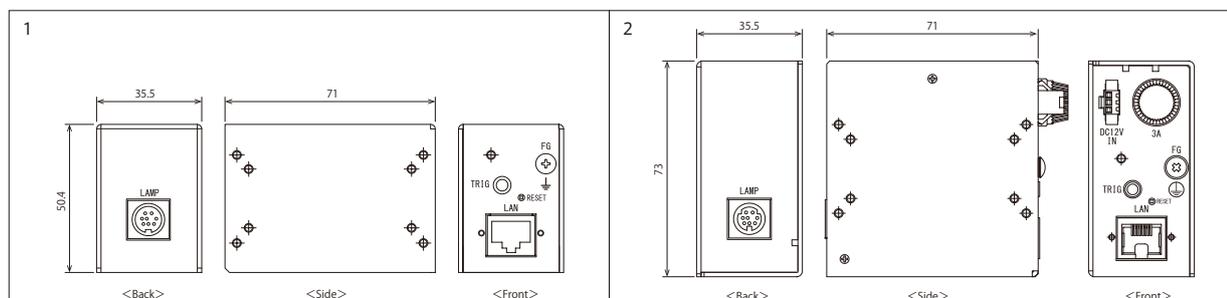

All these settings can be configured from the compatible application.

The selected compatible controller (Device) is displayed, showing the corresponding configuration settings

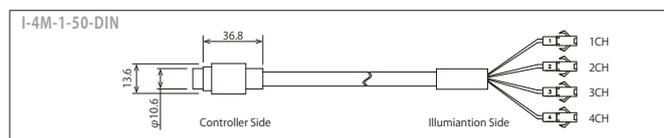

Controller Specifications

Model	IPPA-7M4G	IRPA-30M4G
Control Method	Approx. 80kHz PWM /256 level	
Channel Number	4CH	
Capacity	A total of 30W or less for all channels (The output will be limited to 7.8W/Ch)	Total 30W (15W/CH)
Input Power Supply	Powered by PoE injector (PoE standard: IEEE 802.3af)	Input voltage DC 12V Input Current 3A (MAX)
Output Voltage	12V	
Trigger Response Time	Approx. 1μs ※1	
Weight	less than 140g	less than 150g
Exterior Diagram	1	2

※1 A recognition time of at least 10 μs is required for trigger signal detection.

Dedicated Cable (included accessory)
