

## **Leimac Ltd. and Smart Vision Lights** **Announce Business Partnership**

~Precision & Smart~

Leimac (Headquarters: Moriyama City, Shiga Prefecture, CEO: Jun Tanaka, hereinafter referred to as 'Leimac'), is pleased to announce the signing of a business partnership agreement with Smart Vision Lights (Headquarters: Michigan, USA, President and CEO: Dave Spaulding, hereinafter referred to as 'SVL') on September 13, 2023 (Wednesday).

Leimac, a Japanese cutting-edge manufacturer specializing in LED illumination and controllers for image processing, boasts an extensive product knowledge base in factory automation inspection equipment and medical device manufacturing. We provide image solutions and illumination solutions for image processing to a wide range of manufacturers across various industries, including semiconductor, electronic components, pharmaceuticals, and food, among others.

SVL is a global leader that brings to the table their specialization in high-speed, high-brightness illumination for the logistics and warehousing industry, innovative specialty lights for robotic inspections, and factory automation products. Their products come with universal internal current-control drivers, offering constant or strobed operation, reduced wiring requirements, and easy installation. SVL's LED illumination solutions are available across various industries, with a primary focus on North America, including the logistics sector and beyond.

With the signing of this agreement, both companies now have a global network and are well-positioned to serve diverse markets and customers. This collaboration is expected to leverage the combined strengths of both companies, leading to the development of innovative products and solutions that address the evolving needs of global customers.

### **【About Smart Vision Lights】**

SVL was founded in 2007 and has since established itself as a global leader in the design and manufacturing of logistics illumination and machine vision solutions for industrial applications.

### **【About Leimac Ltd.】**

Leimac Ltd. has been in business since 1993, starting with the manufacturing of factory automation (FA) equipment to promote automation in manufacturing plants. Since then, we have remained a "creative manufacturing company," continually producing innovative products such as LED illumination and high-function controllers for image processing, as well as healthcare products, all while staying attuned to the changing times.
