Notice of Discontinuation of LED Illumination (IDBA-SE Series)

We hope this message finds you well. We are reaching out to inform you of an important update regarding our product line IDBA-SE series.

After careful consideration, we regret to inform you that we will be discontinuing the production of our current model. We understand the impact this decision may have, and we want to assure you that it was made with careful thought and consideration of the evolving needs of our customers.

However, we are excited to introduce our new generation of products IDBB-SE series that will serve as successors to the current line. These new models embody the latest advancements in technology, design, and functionality.

We are confident that they will not only meet but exceed your expectations.

For detailed information on the new models and their features, please refer to the following. If you have any questions or require further assistance in transitioning to the successor models, our dedicated support team is ready to help.

Regarding the targeted product, we kindly request your order placement by the final deadline. Thank you for your cooperation.

We appreciate your continued partnership and look forward to serving you with our latest and most advanced solutions.

-details-

1. Last order date

December 20, 2024

*If stock runs out before the above date, we will switch at that time.

Thank you for your understanding.

2. List of discontinued products and their successors

Discontinued Products	specification		successor
IDBA-SE■△	standard	→	IDBB-SE■△
IDBA-SE■△-WP	Waterproof	→	IDBB-SE■△-WP

*■ is the Illumination length (50-800). The Illumination length is a multiple of 50.

*The △ indicates the light emitting color (R=red, W=white, B=blue).

*Custom products based on the product in question are also eligible.

If you have any questions, please contact our sales representative.

[Dimensions and power consumption]

No change in discontinued product/successor.

[Wavelength]

In white, the color temperature increases.

No difference in red/blue.

	Discontinued Products IDBA-SE series		successor IDBB-SE series
White (color temperature)	5700k (tpy)	→	6200k (tpy)
Red (wavelength)	635nm		635nm
Blue (wavelength)	465nm		465nm

[Optical Properties]

Compared to the discontinued model, the successor model has a 1.5 times wider light distribution angle, The light distribution angle will be approximately 1.5 times wider than that of the discontinued model.

	angle of light distribution
Discontinued Products IDBA-SE series	About 35 degrees
successor IDBB-SE series	About 50 degrees

[brightness]

The successor has a wider light distribution, so the red and blue colors are brighter in the vicinity of the workpiece.
